

Art (Bachelor of Arts)

College of Design, Iowa State University

Accelerated Degree Program

Advisory Guidelines

The College of Design offers several degree programs that can be completed on an accelerated schedule, such as three years. These accelerated degree pathways should be considered as one of many options students have for completing their studies.

A combination of three factors can accelerate a degree program towards completion in three years:

- Enter Iowa State with early credit which applies towards specific prerequisites and/or electives*
- Take 16 or more credits each semester
- Take classes during one or more summer terms

Iowa State's academic advisors work with students to achieve their academic goals on an individualized basis. This sequence is only one example and should be used as an advisory guideline.

Recommended Sequence for Accelerated Degree, Bachelor of Arts

For Accelerated Degree, incoming students should plan for 18 college-level course credits including:**

- Completion of **6 credits** from Communications requirements (e.g., ENGL 1500, SPCM 1100, etc.)
- Completion of **6 credits** from Math, Physical, Biological Sciences requirements (e.g., PHYS 1010, MATH 1400)
- Completion of **6 credits** that fulfill University requirements and/or General Education electives

Year 1	Fall Semester	Credits	Spring Semester	Credits
	DSNS 1020 (or DSNS 1310)	4	DSNS 1310 (or DSNS 1020)	4
	DSNS 1320	1	DSNS 1830	3
	DSNS 1150	1	General Elective	3

*Advanced Placement: Iowa State University participates in the Advanced Placement program of the College Board, and credit for the College-Level Examination Program (CLEP) testing may be granted. Students who are interested in an accelerated 3-year plan will need to take the national examinations through the College Board to qualify for academic credit through Advanced Placement and CLEP exams prior to starting their degree programs.

**Consult catalog for a full list of approved courses that can be applied towards degree audit requirements.
