

IOWA STATE UNIVERSITY

Master of Arts in Experiential Graphic Design - MxGD

This 30-credit degree focuses on preparing students for a job in visual communication. This degree provides comprehensive exposure to all aspects of experiential graphic design, including wayfinding, exhibition, interaction design, information design, and more.

The MxGD is for those seeking a graphic design specialization with little or no previous experience in the area. Students may also use the degree as a complement to a bachelors degree in graphic design or another design field to enhance their skills and qualifications for employment.
