

# CULINARY FOOD SCIENCE (AGLS)

**Culinary Food Science** is an interdisciplinary degree that combines food science with culinary skills development, preparing students to become leaders in food product development. Through food science coursework, hands-on culinary training, and food industry internships, graduates are equipped to develop new innovative food products and optimize existing ones for improved taste, nutrition, and consumer appeal. In the food industry, culinary food scientists work in research and development of food products, culinary innovation, test kitchens, recipe development, marketing and sales, food regulation, and quality assurance.

The program is an approved Culinology® curriculum by the Research Chefs Association. Culinary food science graduates are prepared for careers as food product developers, food innovation managers, culinary application scientists, test kitchen managers, recipe developers, and food marketing and sales managers.

The department also offers a culinary food science minor (<https://catalog.iastate.edu/collegeofagricultureandlifesciences/foodscienceandhumannutrition/#undergraduateminortext>).

## Student Learning Outcomes

Upon graduation, students should be able to:

- Communicate effectively in their field of study using written, oral, visual and/or electronic forms.
- Demonstrate proficiency in ethical data collection and interpretation, literature review and citation, critical thinking and problem solving.
- Participate effectively in a group or team.
- Integrate creativity, innovation, or entrepreneurship in ways that produce value.
- Explain how human activities impact the natural environment and how societies are affected.
- Meet program specific learning outcomes for the Culinary Food Science major.

## Degree Requirements

Administered by the Department of Food Science and Human Nutrition

### Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Cultures and Communities requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

### International Perspectives: 3 cr. U.S. Cultures and Communities: 3 cr. Communications and Library: 10 cr.

|                      |                                                   |           |
|----------------------|---------------------------------------------------|-----------|
| ENGL 1500            | Critical Thinking and Communication               | 3         |
| ENGL 2500            | Written, Oral, Visual, and Electronic Composition | 3         |

\* Choose elective courses to total equal to or greater than 120 credits.

~~Planned~~ course offerings may change and students need to check the online Schedule of Classes each term to confirm course offerings: <https://classes.iastate.edu> (<https://classes.iastate.edu/>). This sequence is only an example. The number of credits taken each semester should be based on the individual student's situation. Factors that may affect credit hours per semester include student ability, employment, health, activities, and grade point consideration.

More information on the Culinary Food Science minor can be found here: [www.catalog.iastate.edu/collegeofagricultureandlifesciences/foodscienceandhumannutrition/#undergraduateminortext](http://www.catalog.iastate.edu/collegeofagricultureandlifesciences/foodscienceandhumannutrition/#undergraduateminortext) (<https://catalog.iastate.edu/collegeofagricultureandlifesciences/foodscienceandhumannutrition/#undergraduateminortext>).
