

EARLY CHILDCARE EDUCATION AND PROGRAMMING

Curriculum in Early Childcare Education and Programming

The **Early Childcare Education and Programming (ECP)** curriculum is designed to prepare graduates to work in a variety of early care and education programs that serve young children and their families. Some of the programs are childcare centers and homes, infant/toddler and preschool programs, Head Start programs, and before and after-school programs for children ages birth to eight. The curriculum is 100% online and flexible by nature to accommodate working adults.

The ECP curriculum is designed to provide content for the final two years of a student's program; the content is focused specifically on topics directly relevant to the major. This is an online program offered through a collaboration of universities called IDEA: and Online Higher Education Alliance. The program within IDEA is known as Early Care and Education for a Mobile Society. For more information see <https://www.idea.edu/program/early-care-and-education-in-a-mobile-society> (<https://www.idea.edu/program/early-care-and-education-in-a-mobile-society/>)

Students will complete a total of 120 credits for the major, 48 of which are specific to the ECP curriculum. These 48 credit hours are comprised of 12 core courses and 2 practicum courses. The final practicum will be a 6-credit capstone experience. Students must complete 30 credits of college work, a lifespan development course, and have a 2.5 GPA to be admitted to ECP. If students prefer to be admitted to ISU before being admitted to the ECP major, they can enroll as Pre ECP (PECP) students until they are eligible for the ECP major. Once admitted as an ECP major, full time students can complete the program in 27 months.

This degree does not lead to teacher licensure. Students interested in a license to teach in public schools can refer to the Early Childhood Education - Unified (ECE) program.

For more information about the ECP program at Iowa State, see <https://online.hs.iastate.edu/early-childcare-programming> (<https://online.hs.iastate.edu/early-childcare-programming/>).

Student Learning Outcomes

Upon successful completion of the ECP bachelor's degree program, students will be able to:

- Use their understanding of young children's characteristics and needs, and of multiple interacting influences on children's

development and learning, to create environments that are healthy, respectful, supportive, and challenging for each child.

- Understand how successful early childhood education depends upon partnerships with children's families and communities and value the importance and complex characteristics of children's families and communities.
- Use child observation, documentation, and other forms of assessment, in partnership with families and other professionals, to positively influence the development of every child.
- Use their knowledge of academic disciplines to design, implement, and evaluate experiences that promote positive development and learning for every young child.
- Identify and conduct themselves as a member of the early childhood profession, using ethical guidelines and other professional standards related to early childhood practice.
- Demonstrate, through sequential practicum experiences and clinical practice, the knowledge, skills, and professional dispositions necessary to promote the development and learning of young children across the entire developmental period of early childhood.

Administered by the Department of Human Development and Family Studies. Leading to the degree Bachelor of Science.

Total credits required: 120

Human Development and Family Studies Core: 3 credits

HDFS 1020	Human Development	3
-----------	-------------------	---

Early Childcare Education and Programming Professional Core: 48 credits

Pre-practicum I

ECP 2010	Child Development - Ages Birth to 3	3
ECP 2020	Child Development - Ages 3 to 8	3
ECP 3050	Professional Development for Early Childhood Educators	3

Pre-practicum II

ECP 4120	Development of Curriculum for Children Ages Birth to 3 *	3
ECP 4130	Development of Curriculum for Children Ages 3 to 8 *	3
ECP 4240	Assessing Young Children and Their Environments to Enhance Development *	3
ECP 4250	Understanding and Adapting for Developmental Differences *	3
ECP 4400	Practicum Experiences with Young Children	3

Professional Development

ECP 3060	Health, Safety, and Nutrition	3
----------	-------------------------------	---

ECP 3070	Social and Emotional Development and Child-Centered Guidance	3	Total credits: 120 credits
ECP 3220	Diversity in the Lives of Young Children and Families	3	
ECP 3230	Working with Families	3	
ECP 3240	Technology and Young Children	3	
ECP 4420	Administration and Supervision in Early Childhood Settings	3	
ECP 4600	Senior Capstone	6	
Total Credits		48	

*** Must be completed prior to enrollment in Practicum II (ECP 4400)**

Electives: 31-32 credits

Communications and Library: 13 credits

ENGL 1500	Critical Thinking and Communication	3
ENGL 2500	Written, Oral, Visual, and Electronic Composition	3
LIB 1600	Introduction to College Level Research	1
One of the following:		3
SPCM 2120	Fundamentals of Public Speaking	
COMST 2110	Interpersonal Communication	
COMST 2180	Communication and Conflict Management	
One of the following:		3
ENGL 3020	Business Communication	
ENGL 3090	Proposal and Report Writing	
ENGL 3140	Technical Communication	
Total Credits		13

Natural Sciences and Mathematical Disciplines: 9-10 credits

One of the following:		3-4
STAT 1010	Principles of Statistics	
MATH 1040	Introduction to Probability	
MATH 1050	Introduction to Mathematical Ideas	
MATH 1400	College Algebra	
MATH 1500	Discrete Mathematics for Business and Social Sciences	
MATH 1650	Calculus I	
Select from Biological or Physical Sciences courses		6
Total Credits		9-10

Social Sciences: 9 credits

Select from Approved General Education options.

Humanities: 6 credits

Select from Approved General Education options.
