

IVY COLLEGE OF BUSINESS

Raj Agnihotri, Dean

Valentina Salotti, Senior Associate Dean for Academic Affairs

Huifang Mao, Interim Associate Dean for Research and Academic Personnel

Mike Howe, Interim Associate Dean for Undergraduate Programs

<https://www.ivybusiness.iastate.edu/>

Curriculum in Business

The Ivy College of Business strives to provide a high-quality professional education in business. Such an education should provide the student with: (1) an appreciation of the evolution of the profession and an awareness of the ethical, global, technological, economic, political and social forces shaping its future; (2) an understanding of the major functional areas of business with the opportunity for specialization for a career in business; (3) an avenue to engage professionally, think innovatively, and develop the capacity to make meaningful contributions to business and society; (4) an opportunity for advanced study.

A comprehensive education in business includes a broad foundation in the liberal arts, courses in the major functional areas of business activity, proficiency in analytical methods, and the ability to identify problems and arrive at logical solutions. In addition, a professional education is designed to inspire students to assume business and community leadership.

The curriculum in business is accredited by AACSB International, the Association to Advance Collegiate Schools of Business.

Organization of Curriculum

The undergraduate curriculum in business is divided into three areas: general education, foundational courses, and a core major. The general education program provides a broad spectrum of liberal arts coursework. The foundational business requirements provide a framework for business coursework. The last area includes two parts: (1) the business core which provides a common body of knowledge in all the functional areas in business, and (2) a major area of study. The twelve majors offered for the degree Bachelor of Science (B.S.) are accounting, actuarial science, business analytics, business economics, entrepreneurship, finance, healthcare management, human resource management, management, management information systems, marketing, and supply chain management. The college also offers the Bachelor of Business Administration (BBA) online degree completer program.

Curriculum Changes

Iowa State University students who want to change their curriculum to the Ivy College of Business should contact the Undergraduate Student Services Office for assistance. For more details on changing curriculum

or majors, please visit: <https://catalog.iastate.edu/academics/#degreeplanningtext>. Students on Academic Probation will not be allowed to change curriculum to the Ivy College of Business during enrollment period three. See Making Schedule Changes at: <http://catalog.iastate.edu/registration/#schedulechangestext>. (<http://catalog.iastate.edu/registration/#schedulechangestext>)

Academic Standards and Graduation Requirements

Policies for students enrolled in the Ivy College of Business may be obtained at <https://www.ivybusiness.iastate.edu/life-at-ivy/academic-services/undergraduate-student-services/> or from the Undergraduate Student Services Office in the Ivy College of Business.

Students are responsible for knowing and adhering to these Ivy College of Business policies as well as the university regulations found in this catalog. The following policies are in effect for students graduating from a professional curriculum in business with a B.S. degree under the 2026 catalog:

1. A minimum of 122 semester credits are required for Bachelor's of Science degrees.
2. At least 50 percent of the required business credits must be earned at Iowa State. All 3000 level and higher business credits must be earned at a four-year institution.
3. Cumulative ISU grade point average of at least 2.0 with no quality point deficiencies.
4. The major departments reserve the right to determine the appropriate section of the degree program to which transfer credits will be assigned.
5. No more than two transfer classes can be applied to the major.
6. Students must achieve communication proficiency by earning a grade of C or better in ENGL 2500, and one additional C or better from either ENGL 1500 or ENGL 3020.
7. A student must earn a grade of C or higher in a minimum of 30 credits applied to the business core and the major.
8. A student must earn at least 42 credits of 3000 level and higher coursework from a four-year institution.
9. Business majors may not take business courses Pass-Not Pass (P/NP).
10. General education and supporting courses may not be taken P/NP.
11. No more than 9 elective credits may be taken P/NP.
12. The last 32 credits applied for graduation must be taken at ISU. A waiver for Study Abroad and Internship/Co-ops may be granted.

Advising System

Each student in the Ivy College of Business has an assigned academic advisor who helps facilitate student progress toward graduation while supporting the academic standards of the College.

Advisors, as part of the Undergraduate Student Services Office staff, provide academic services to Business students including development of academic plans, study abroad planning, accessing pertinent University services and resources, and meeting their overall educational objectives.

The College encourages students to attend an orientation program prior to their entry, where information is shared and evaluated to help set the student out on the academic path appropriate to their goals, preparation, interests, and capabilities.

Honors

Entering freshmen who meet the criteria will be invited to apply for membership in the Freshman Honors Program by the University Honors Program. For more information on the University Honors Program, please visit: <https://www.honors.iastate.edu/>.

Currently enrolled students who have completed 12 graded credits at Iowa State University, earned a cumulative GPA of 3.50 or above, and have more than 48 credit hours remaining until graduation, are eligible to apply for membership to the University Honors Program (UHP). UHP students in the Ivy College of Business will work with designated advisors to incorporate elements of breadth, depth, and leadership into their business education through completion of academic, co-curricular, and personal/professional development experiences. In addition, to graduate with Honors in the Ivy College of Business, students must complete a minimum of two honors-designated courses, two 3000-level honors seminars, an honors project, 50 credits of 3000-level or higher coursework, and maintain a cumulative GPA of 3.50 or above. Additional details of requirements can be found on the Ivy College of Business Honors website at: <https://www.ivybusiness.iastate.edu/life-at-ivy/get-involved/honors-program/>. (<https://www.ivybusiness.iastate.edu/life-at-ivy/get-involved/honors-program/>)

Internships

Credit and non-credit internships in business may be approved for Ivy College of Business students in all majors. Credit hours and requirements vary, although internship credits only count as general electives. Arrangements must be made in the college prior to the beginning of the internship. A career coordinator from the Business Career Services Office will assist students in making these arrangements.

Multiple Majors

Undergraduates pursuing a degree in the Ivy College of Business may complete additional majors in the Ivy College of Business. * Those

desiring additional majors outside the college should refer to the catalog section of the appropriate college and department for the additional major requirements. A multiple major in business economics and agricultural business or economics is not permitted. A major in business economics with a minor in economics is not permitted.

Undergraduates with a primary major outside the Ivy College of Business who want a second major in business must complete the following requirements: Foundation, Supporting Courses, Business Core, and major requirements. (Refer to the current Curriculum Guide (<https://catalog.iastate.edu/collegeofbusiness/#curriculuminbusiness>)).

All students pursuing multiple majors within the Ivy College of Business are required to have a minimum of 15 credits of coursework in each major that is not used in the other majors.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

** BBA students cannot double major or earn a double degree in a business area. However, they may work towards a double degree in another college at Iowa State. Online minors and online certificates outside of the Ivy College of Business could be added to the BBA if desired. Consult with an advisor in the Undergraduate Student Services Office for assistance in identifying online minor options.*

Minors and certificates

Minor in International Business

In today's interconnected global economy, international management skills are essential for business professionals across all industries and functions. Students with a major in the Ivy College of Business may earn a minor in International Business by completing 15 credits of approved coursework. Students in the minor will learn valuable international management skills that complement their primary area of study and prepare them for business positions with international responsibilities. The minor requires one course (International Management), one course from the approved Foundational courses, and three courses from the approved Elective courses. In addition, the minor requires the completion of an international experience or a plan of study approved by the Ivy International Programs Coordinator. For students who want to be ready for a global career, earning the minor in international business provides a recognizable credential preparing them to make their mark on the world stage.

Minor in Business and Technology Consulting

The Department of Marketing offers a specialty minor open to any undergraduate student at Iowa State University. The Business and Technology Consulting minor prepares you for a career as a business

consultant. Every year consulting companies attract talented graduates across the world. As a consultant, you gain broad exposure to business issues, solve different business problems, make an impact on major businesses, and become an expert in a specific business functional area. The minor provides a systematic process for students to strengthen problem-solving skills and prepare them to become better communicators and future leaders.

The minor requires 15 credits from an approved list of courses, including at least 6 credits in courses numbered 3000 or above taken at Iowa State University with a grade of C or higher. The minor must include at least 3 credits that are not used to meet any other department, college, or university requirement. Students with declared majors have priority over students with declared minors in courses with space constraints.

Minors for Business Students

Students with a major in the Ivy College of Business (excluding BBA students[^]) may qualify for a minor specialization in one of the college's departments. Minor specializations are available in: Accounting, Business Analytics, Entrepreneurship (see Entrepreneurship Cross-Disciplinary Minor below), Finance, International Business (see Minor in International Business above), Management, Management Information Systems, Marketing, and Supply Chain Management. These minors require at least 15 credit hours in the minor specialization (16 credit hours are required for a minor in accounting), 3 hours of which may not be used to satisfy any other department, college, or university requirement. The minor must include at least 6 credits in courses numbered 3000 or above taken at Iowa State University with a grade of C or higher. Students with declared majors have priority over students with declared minors in courses with space constraints.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

[^] BBA students can add online minors and online certificates offered outside the Ivy College of Business. Consult with an advisor in the Undergraduate Student Services Office for assistance in identifying online minor options.

Minor in General Business for Non-Business Students

The Ivy College of Business offers a structured minor in general business to students outside the College. The minor requires a minimum of 15 credits, not including pre-requisite courses. Requirements for the minor are:

Required Courses (6 credits):

ACCT 2840	Financial Accounting	3
ACCT 2850	Managerial Accounting	3
or ACCT 2150	Legal Environment of Business	

Elective Courses (9 credits):

Select three courses from the following list:

ENTSP 3100	Entrepreneurship and Innovation	3
FIN 3010	Principles of Finance	3
MIS 3010	Management Information Systems	3
MKT 3400	Principles of Marketing	3
MGMT 3700	Managing Organizations	3
SCM 3010	Supply Chain Management	3

The minor must include at least 6 credits in courses numbered 3000 or above taken at Iowa State University. A "C" average or better is required in courses used to satisfy the minor requirements. The minor must include at least 3 credits that are not used to meet any other department, college, or university requirement. All requirements for the minor must be taken for a grade. Students with a major outside the Ivy College of Business are eligible for a general business minor or a minor in business and technology consulting only. They may not receive any other specific minor from a business department.

For more information on the General Business minor, please visit: <https://www.ivybusiness.iastate.edu/academics/undergraduate-programs/minors-and-certificates/>. (<https://www.ivybusiness.iastate.edu/academics/undergraduate-programs/minors-and-certificates/>)

Entrepreneurship Cross-Disciplinary Minor

The Ivy College of Business participates in a university-wide minor in Entrepreneurship. This minor is available to any undergraduate student. Requirements for the minor include, ENTSP 3100 Entrepreneurship and Innovation (3 credits), either ENTSP 3130 Feasibility Analysis for New Ventures or ENTSP 3200 Corporate Entrepreneurship or ENTSP 4100 Social Entrepreneurship (3 credits), two business-oriented electives from an approved list (6 credits), and an experiential learning component (3 credits). The approved list of courses is available at: <https://www.ivybusiness.iastate.edu/academics/undergraduate-programs/minors-and-certificates/entrepreneurship-minor/>. (<https://www.ivybusiness.iastate.edu/academics/undergraduate-programs/minors-and-certificates/entrepreneurship-minor/>) The minor requires at least 15 credits, including at least 6 credits in courses numbered 3000 or above taken at Iowa State University with a grade of C or higher. The minor must include at least 3 credits that are not used to meet any other department, college, or university requirement.

Undergraduate Certificates

Healthcare Management Certificate

The Department of Management and Entrepreneurship offers a Healthcare Management Certificate open to all Iowa State University

students. The program equips students with healthcare management skills and knowledge that complement their primary field of study. Built around four required courses, students explore the structure of the healthcare industry, its key stakeholders, and how their interactions shape care delivery. They develop the ability to lead teams, improve organizational performance, oversee finances, support high-quality patient care, and navigate regulatory complexities. Electives from a wide range of healthcare-related disciplines across campus provide a synergistic experience, particularly for students in health-related majors. For those pursuing a career in the healthcare industry, the certificate offers a recognized credential to enhance career opportunities upon graduation and beyond.

Students need to fulfill the course prerequisites set by the Ivy College of Business. The certificate requires 20 credits (minimum) from a designated list of courses.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

For more information about the Healthcare Management Certificate, please visit: <https://catalog.iastate.edu/collegeofbusiness/healthcaremanagement/#undergraduatecertificatetext>.

Professional Sales Certificate

The certificate in professional sales is a course of study administered by the Department of Marketing in the Ivy College of Business. It is open to all Iowa State University students who wish to enhance their degree and employment possibilities by adding expertise in professional selling. The certificate program will equip students with knowledge and skills related to developing and managing mutually beneficial relationships with customers. The certificate program is built on a strong theoretical background but emphasizes applications and practice. The certificate provides students with an opportunity to learn about the ethical, technological, analytical, and global aspects of professional sales.

Students need to fulfill the course prerequisites set by the Ivy College of Business. The certificate requires 21 credits from a designated list of courses.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

For more information about the Professional Sales Certificate, please visit: <https://catalog.iastate.edu/collegeofbusiness/marketing/>

#undergraduatecertificatetext. (<https://catalog.iastate.edu/collegeofbusiness/marketing/#undergraduatecertificatetext>)

Real Estate Certificate

The Certificate in Real Estate is a course of study administered by the Department of Finance in the Ivy College of Business. This program provides students from any major or college with a comprehensive understanding of the legal, economic, and financial dimensions of real estate. The certificate enables students with an interest in real estate to showcase their specialized knowledge to potential employers.

Students need to fulfill the course prerequisites set by the Ivy College of Business. The certificate requires 21 credits from a designated list of courses.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

For more information about the Certificate in Real Estate, please visit: <https://catalog.iastate.edu/collegeofbusiness/finance/#undergraduatecertificatetext>.

Risk Management and Insurance Certificate

The Certificate in Risk Management and Insurance (RMI) is a course of study administered by the Department of Finance in the Ivy College of Business. The certificate will give students, regardless of major or college, a deeper understanding of personal and corporate risk management and of the insurance industry. The certificate will allow students with an interest in risk management and insurance to signal their expertise and focused study to potential employers.

Students need to fulfill the course prerequisites set by the Ivy College of Business. The certificate requires 21 credits from a designated list of courses.

Students are limited to three business majors/certificates/minors within the Ivy College of Business. This limit is on business majors/certificates/minors only and does not apply to multiple majors/degrees/certificates/minors taken outside the Ivy College of Business.

For more information about the Certificate in Risk Management and Insurance, please visit: <https://catalog.iastate.edu/collegeofbusiness/finance/#undergraduatecertificatetext>.

Actuarial Science Certificate

The certificate in actuarial science is available from the *College of Liberal Arts and Sciences* for non-actuarial science majors at Iowa State. The

certificate requires 23 credits from a designated list of courses. There are 7 prerequisite courses required for the certificate's required courses.

For more information about the Actuarial Science Certificate, please visit: <https://catalog.iastate.edu/collegeofbusiness/actuarialscience/#certificatetext>. (<https://catalog.iastate.edu/collegeofbusiness/actuarialscience/#certificatetext>)

Non-degree Seeking Students

Students who wish to take courses in the Ivy College of Business, but are not seeking an undergraduate degree, should apply to the college as non-degree seeking students.

Departments of the College

- Accounting (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/accounting/>)
- Finance (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/finance/>)
- Information Systems and Business Analytics (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/information-systems-and-business-analytics/>)
- Management and Entrepreneurship (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/management-and-entrepreneurship/>)
- Marketing (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/marketing/>)
- Supply Chain Management (<https://www.ivybusiness.iastate.edu/about-ivy/academic-departments/supply-chain-management/>)

Curriculum in Business

The college offers programs of study leading to the degree Bachelor of Science with a major in accounting, actuarial science, business analytics, business economics, entrepreneurship, finance, healthcare management, human resource management, management, management information systems, marketing, or supply chain management. Total credits required: 122.

The college also offers a degree completer program leading to a Bachelor of Business Administration (BBA). Total credits required: 120.

See also: A 4-year (8 semester) plan of study for each business degree. (<https://catalog.iastate.edu/planofstudy/#collegeofbusinesstext>)

GRADUATE STUDY

Master's Programs

Twelve programs are offered at the master's level: a Master of Business Administration (MBA), a Professional Master of Business Administration (PMBA), a Master of Accounting (MAcc), a Master of Accounting Analytics (MAA), a Master of Business Analytics (MBAN), a Master of Entrepreneurship (MEP), a Master of Finance (MFIN), a Master of Financial Technology (MFT), a Master's in Healthcare Analytics and Operations (MHAO), a Master of Real Estate Development (MRED), a Master of Science in Information Systems (MSIS), and a Master of Science in Supply Chain Management (MS SCM). These programs are intended to meet distinct sets of educational objectives.

Master of Business Administration (MBA)

The Master of Business Administration (MBA) is the professional management education program for those pursuing careers in business. The goal of the MBA program is to educate future business leaders preparing them for the challenges of tomorrow by giving them the vision, knowledge, skills, and confidence to make the best decisions for all involved stakeholders. The MBA program consists of a 48-credit curriculum leading to a non-thesis, non-creative component Master of Business Administration. Students may pursue a specialization in accounting, accounting analytics, business analytics, entrepreneurship, finance, healthcare analytics and operations, information systems, leadership, marketing, real estate, or supply chain management.

The Ivy College of Business also offers a business administration graduate minor to students with majors outside the college. For more information on the graduate minor in business administration, please visit: <https://www.ivybusiness.iastate.edu/academics/graduate-programs/graduate-minor/>. (<https://www.ivybusiness.iastate.edu/academics/graduate-programs/graduate-minor/>)

A concurrent BS/MBA is available to eligible engineering undergraduate students majoring in aerospace, agricultural, biological systems, biomedical, chemical, civil, computer, construction, cybersecurity, electrical, industrial, materials science, mechanical, or software engineering. A concurrent BS/MBA is available to eligible undergraduate students majoring in agricultural systems technology, agronomy, animal science, animal enterprise and innovation, chemistry, computer science, food science, geology, industrial design, industrial technology, and meteorology.

Double master's degree programs are offered with accounting (MBA/MAcc), architecture (MBA/MArch), business analytics (MBA/MBAN),

community and regional planning (MBA/MCRP), entrepreneurship (MBA/MEP), finance (MBA/MFIN), healthcare analytics and operations (MBA/MHAO), information systems (MBA/MSIS), and real estate development (MBA/MRED).

Earn a Master of Business (MBA) and a Doctor of Veterinary Medicine degree (DVM) at the same time through our concurrent MBA program partnership with the College of Veterinary Medicine.

Professional Master of Business Administration (PMBA)

The professional Master of Business Administration (PMBA) is the professional management education program for those pursuing careers in business. The goal of the PMBA program is to educate future business leaders preparing them for the challenges of tomorrow by giving them the vision, knowledge, skills, and confidence to make the best decisions for all involved stakeholders. The PMBA program consists of a 42-credit curriculum leading to a non-thesis, non-creative component professional Master of Business Administration. Students may pursue a specialization in accounting, accounting analytics, business analytics, entrepreneurship, finance, healthcare analytics and operations, information systems, leadership, marketing, real estate, or supply chain management.

Double master's degree programs are offered with accounting (PMBA/MAcc), business analytics (PMBA/MBAN), entrepreneurship (PMBA/MEP), healthcare analytics and operations (PMBA/MHAO), and real estate development (PMBA/MRED).

Multiple concurrent degree programs are offered between the Ivy College of Business and other Colleges at ISU. The concurrent degree programs allow qualified students to be admitted to a master's program while completing their undergraduate degree. Students can double count up to 6 credits of coursework between the degrees, allowing them to complete both a Bachelor of Science and a master's degree in an accelerated pathway. The concurrent degree programs offered include:

- B.S. Accounting (ACCT) and Master of Accounting (MAcc)
- B.S. Business Analytics (BUAN) and Master of Business Analytics (MBAN)
- B.S. Business Analytics (BUAN) and Master of Science in Information Systems (MSIS)
- B.S. Finance (FIN) and Master of Finance (MFIN)
- B.S. Management Information Systems (MIS) and Master of Science in Information Systems (MSIS)
- B.S. Management Information Systems (MIS) and Master of Business Analytics (MBAN)
- B.S. Animal Science (ANS) and Master of Science in Supply Chain Management (MS SCM)
- B.S. Animal Enterprise and Innovation (AEI) and Master of Science in Supply Chain Management (MS SCM)

- B.S. Math (MATH) and Master of Finance (MFIN)
- B.S. Math (MATH) and Master of Science in Supply Chain Management (MS SCM)
- B.S. Software Engineering (SE) and Master of Science in Information Systems (MSIS)

For more information on the concurrent Bachelors and master's programs offered through the Ivy College, please visit: <https://www.ivybusiness.iastate.edu/academics/graduate-programs/concurrent-degree-options/>.

Executive Master's in Business Administration (EMBA)

The Executive MBA is a specialized management education program designed for experienced professionals in the food, agriculture, and biosystems industries and the adjacent industries of financial services and insurance. Its mission is to equip seasoned leaders with advanced strategic insight, enhanced leadership capabilities, and increased earning potential. The 48-credit curriculum combines core MBA coursework with industry-specific content, culminating in a non-thesis, non-creative component Master of Business Administration degree.

The program launches with a one-week residency at Iowa State University in Ames, Iowa, which includes orientation and initial coursework. Following residency, classes meet in person every three weeks on Fridays and Saturdays in Ames, with online engagement between sessions to enrich the learning experience. This hybrid format is tailored to accommodate full-time professionals, offering the benefits of face-to-face instruction while maintaining flexibility.

Master of Accounting (MAcc)

The Master of Accounting (MAcc) program is designed to equip students for successful careers in both public and private accounting. Program curriculum focuses on interpreting and analyzing accounting information to drive informed decision-making, while also preparing students for certification as a Certified Public Accountant (CPA) or Certified Management Accountant (CMA). The 30-credit hour program requires a variety of graduate-level accounting courses, including core courses in data analytics and communication. Students can tailor their education by choosing from specialized tracks in Financial Reporting and Assurance, Information Systems and Analytics, Tax, or Managerial Decision Making. Additionally, the program offers six credits dedicated to helping students prepare for their certification exam.

Master of Accounting Analytics (MAA)

The Master of Accounting Analytics (MAA) is designed to meet the demand for accounting professionals with advanced business analytics expertise. The MAA program curriculum provides a deep dive into a comprehensive selection of accounting and business analytics topics focusing on interpreting and analyzing accounting information for decision-making. The 30-hour program is delivered entirely in an online asynchronous format, allowing students to complete their coursework

from anywhere and work at their own pace. The MAA program is ideal for working professionals seeking to further their education while remaining on the job and for those looking to further their education and enter the workforce with an in-demand special set of skills.

Master of Business Analytics (MBAN)

The Master of Business analytics (MBAN) is an interdisciplinary program that addresses the challenges of dealing with data analytics and business intelligence in the "Big Data" environment. The goal is to develop managers who will master analytics in ways that lead to increased profits for their company. The program, offered both online and in-person, takes a comprehensive approach incorporating courses across campus, including Business, Computer Science, Electrical and Computer Engineering, Statistics, and Industrial and Manufacturing Systems Engineering. It provides a foundation in predictive and classification models for structured and unstructured data, data pre-processing, and data visualization. Students will not only develop fundamental knowledge in statistics and analytical programming but also apply these skills to real-world cases, gaining hands-on experience in solving practical business and analytical problems. The program requires 30 credits of graduate level courses over a 21-month period.

A certificate in business analytics is also available for working professionals. The certificate requires a minimum of 12 graduate level approved credits, which may be taken either on-line or face-to-face. For more information on the graduate certificate in business analytics, please visit: <http://catalog.iastate.edu/collegeofbusiness/businessanalytics/#graduatecertificatetext>. (<http://catalog.iastate.edu/collegeofbusiness/businessanalytics/#graduatecertificatetext>)

A certificate in Digital Marketplace Analytics is offered by the Ivy College of Business and the College of Health and Human Sciences. The 15-credit certificate, which incorporates coursework from both colleges, provides an innovative program for individuals who want to build their data analytics skills and to apply analytics tools to problem-solving in the fashion, events, and hospitality industries. For more information on the graduate certificate in digital marketplace analytics, please visit: <http://catalog.iastate.edu/collegeofbusiness/businessanalytics/#graduatecertificatetext>. (<http://catalog.iastate.edu/collegeofbusiness/businessanalytics/#graduatecertificatetext>)

Master of Finance (MFIN)

The Master of Finance (MFIN) is designed to provide students with in-depth coverage of financial topics and a strong quantitative skill set. Students will learn financial analysis, valuation, modeling, and risk management techniques. The 30-credit program requires 24 finance credits, of which 6 are finance electives. The remaining 6 credits are electives selected from any related area.

A certificate in finance is also available. The certificate requires a minimum of 12 graduate level approved credits, which may only be taken

face-to-face. For more information on the graduate certificate in finance, please visit: <http://catalog.iastate.edu/collegeofbusiness/finance/#graduatecertificatetext>. (<https://catalog.iastate.edu/collegeofbusiness/finance/#graduatecertificatetext>)

Master of Financial Technology (MFT)

The Master of Financial Technology (MFT) is a collaborative degree program offered by the departments of Finance and Computer Science. The Master of Financial Technology is a course-only curriculum that focuses on providing a broad set of skills in both financial analysis and computational methods and algorithms. Students will learn how to develop algorithms and data-driven models from computer science curriculum and they will learn how those analytical techniques can be useful to produce value for individual and institutional clients in finance curriculum. Students also have the opportunity to select elective courses from Information Systems which will further their knowledge and inferences from the combination of business and technical foundations. The 30-credit program requires 12 core credits (6 computer science and 6 finance), with 18 elective credits coming from both computer science and business disciplines.

Masters in Healthcare Analytics and Operations (MHAO)

Graduates of the Master's in Healthcare Analytics and Operations (MHAO) program will leverage data and advanced analytical models to evaluate operations and supply chains, generating actionable insights that enhance outcomes in the healthcare sector. This program emphasizes the use of both historical and real-time data to identify trends and optimize processes, ultimately benefiting patients, healthcare professionals, and supply chain partners alike. With a requirement of 30 credit hours, the program is delivered entirely online, making it an excellent choice for full-time professionals in the healthcare industry. The MHAO program curriculum aligns with the competencies required for the Certified Health Data Analyst (CHDA) exam.

The Healthcare Analytics Graduate Certificate equips healthcare professionals with practical data skills to drive informed decisions. This 12-credit online program, ideal for those in or entering healthcare analytics, business intelligence, or health technology, offers focused training without a full master's degree commitment. Students gain hands-on experience with industry-standard tools, learning to collect, analyze, and communicate healthcare data. Core courses cover analytics, data privacy, and compliance, while electives explore machine learning, operations, and data management. Graduates are prepared to make an immediate impact in performance improvement, financial analysis, population health, and quality and safety reporting.

Master of Real Estate Development (MRED)

The Master of Real Estate Development (MRED) is a 30-credit non-thesis, non-creative component program. The MRED program offers academic training, networking opportunities and collaboration with leading academics and practitioners to solve real world problems. Areas of study

include real estate market analysis, finance, investments, leadership and negotiation, fundamentals of the build environment, construction science and urban planning. The curriculum is offered in a convenient format of distance learning and brief campus residencies, making it ideal for the full-time working professional.

Master of Science in Information Systems (MSIS)

The Master of Science in Information Systems (MSIS) program equips students with strong IT skills and a broad understanding of business to design, implement, and manage information systems that support organizational success. The 30-credit curriculum includes business foundation courses, information systems core courses, electives, and a research requirement (creative component). Courses cover areas such as artificial intelligence, big data, cybersecurity, blockchain, and business analytics, giving students the knowledge and tools to innovate and lead in today's digital economy.

A certificate in enterprise cybersecurity management is also available. The certificate requires a minimum of 12 graduate level approved credits, which may be taken either on-line or face-to-face. For more information on the graduate certificate in enterprise cybersecurity management, please visit: <http://catalog.iastate.edu/collegeofbusiness/managementinformationsystems/#graduatecertificatetext>. (<https://catalog.iastate.edu/collegeofbusiness/managementinformationsystems/#graduatecertificatetext>)

Master of Entrepreneurship (MEP)

The Master of Entrepreneurship (MEP) is designed to provide students with the knowledge, skills, and practical experience to prepare students to start and manage new business ventures independently — or within an established organization. Students will develop and apply the primary entrepreneurial skills needed to identify and evaluate market opportunities as well as to think creatively to formulate and implement successful strategies for moving a business idea forward. The 30-credit program requires traditional core and elective courses in addition to experiential components designed to help students build experience in real world entrepreneurial tasks and activities.

A certificate in entrepreneurship and innovation is also available. The certificate requires a minimum of 12 graduate level approved credits, which may be taken either on-line or face-to-face. For more information on the graduate certificate in entrepreneurship and innovation, please visit: <http://catalog.iastate.edu/collegeofbusiness/entrepreneurship/#graduatecertificatetext>.

Master of Science in Supply Chain Management (MS SCM)

The Master of Science in Supply Chain Management (MS SCM) is designed to provide high-quality professional training to students. Students graduating from this program are expected to develop into highly qualified supply chain professionals who possess advanced managerial and analytical skills to make sound supply chain decisions

and lead supply chain improvement initiatives. With a requirement of 30 credit hours, the program is delivered entirely online, making it an excellent choice for undergraduate students entering their final year at Iowa State as well as full-time professionals with some initial work experience.

A certificate in supply chain management is also available. The certificate requires a minimum of 12 graduate level approved credits, which may only be taken on-line. For more information on the graduate certificate in supply chain management, please visit: <http://catalog.iastate.edu/collegeofbusiness/supplychainmanagement/#graduatecertificatetext>. (<https://catalog.iastate.edu/collegeofbusiness/supplychainmanagement/#graduatecertificatetext>)

A certificate in Quantitative Principles in Business is offered by the Ivy College of Business. The 15-credit certificate, which incorporates coursework from Quantitative Business Analysis, Financial Valuation, and Financial Markets, also provides students a choice of electives in related business fields. The certificate enhances a student's career prospects with a credential that demonstrates quantitative and analytical skills competencies. Students who achieve a B or higher average in the certificate can stack this certificate with the Leadership in Business certificate (15 credits) and one additional Ivy Graduate Certificate (12-15 credits) to earn the Professional Master of Business Administration degree. For more information on the graduate certificate in Quantitative Principles in Business, visit: <https://www.ivybusiness.iastate.edu/academics/graduate-programs/graduate-certificates/>.

Strong leadership skills differentiate high-performing professionals and are increasingly valued by employers in all industries. The Leadership in Business graduate certificate offers a flexible and stackable pathway for busy professionals to build essential management and leadership skills. Students in the certificate will develop valuable leadership competencies that prepare them for management positions with greater responsibility and impact. The certificate requires three core courses (Professional Responsibility in Business and Society, Strategic Management, and Leadership) and two elective courses from approved options in accounting, management, marketing, supply chain management, and management information systems. For professionals looking to build their leadership expertise and gain a competitive edge, the Leadership in Business certificate provides the knowledge and credentials to accelerate career trajectory. Students who achieve a B or higher average in the certificate can stack this certificate with the Quantitative Principles in Business certificate (15 credits) and one additional Ivy Graduate Certificate (12-15 credits) to earn the Professional Master of Business Administration degree. For more information on the graduate certificate in Leadership in Business, please visit: <https://www.ivybusiness.iastate.edu/academics/graduate-programs/graduate-certificates/>

The Ivy College of Business participates in the following graduate level interdepartmental programs: Cyber Security, Engineering Management, Human Computer Interaction, and Seed Technology and Business.

PhD in Business and Technology

The Ivy College of Business offers graduate work leading to the Doctor of Philosophy degree in business and technology, with one of six specializations—entrepreneurship (ENTSP), finance, (FIN), information systems and business analytics (ISBA), management (MGMT), marketing (MKT), or supply chain management (SCM). Departments in the college (Finance, Management and Entrepreneurship, Marketing, Supply Chain Management, and Information Systems and Business Analytics), along with select other departments from across campus cooperate in providing coursework toward this degree. The program prepares individuals for academic careers in research, teaching, and public service at institutions of higher learning in the United States and other countries. The program consists of seminars in content areas, statistics, and research methodology in the first two years. After passing comprehensive exams, students will focus on their dissertation.

The standard length of this 74-credit program is five years. All work, including the dissertation, must be done in residence (on campus).

For more details or application information contact the Graduate Programs office in the Ivy College of Business or visit: <https://www.ivybusiness.iastate.edu/academics/phd-program/>. (<https://www.ivybusiness.iastate.edu/academics/phd-program/>)
